JULY 2026

TEAM NIGHTS TO REMEMBER

This month, our team came together for a bowling and go kart team night! This created an opportunity to connect outside of the everyday work environment and strengthen the relationships that make our culture unique. Moments like these remind us that a strong team is built not only through professional growth but also through the connections we create with one another while making fun memories.

NATIONAL CONFERENCE

One of the highlights of July was attending the National Conference, where we joined professionals from across the country for several days of learning, collaboration, and celebration. Throughout the conference, we participated in an organizational meeting, campaign meeting, and general sessions, which allowed us to gain valuable insights and lessons. A standout moment was our CEO, Layton Harris, presenting the breakout session, "Vision, Culture, and Alignment." His session highlighted the importance of leading with purpose, creating a strong team culture, and maintaining alignment to achieve long-term success. The insights shared reflected the values that continue to guide Clearwater Valley Consulting and our commitment to developing strong leaders. The conference concluded with a beautiful awards dinner, where outstanding achievements were recognized and celebrated. We returned inspired by the connections made, lessons learned, and opportunities to continue growing together.
